MEXICO PUBLIC SCHOOLS.

Are well supplied with exits and in case of fire the building could be emptied quickly—Fire Practice to be inaugurated.

The terrible fire of Collinsville, O., brings to the public eye the great need of fire escapes for all public school buildings throughout the country.

The public schools of Mexico, however, are well equipped with exits and with the well trained pupils, it would be only a matter of a few minutes till the building could be emptied.

A representative of the Ledger called on Mr. S. P. Simmons, of the school board, late Thursday afternoon, and ascertained that only the first and second floor of each of the three schools are in use. At the North side school, there are three exits, one on the south and another on the east, while the "South side school has large exits on the north and south ends, and the high school is equally well fitted with large exits on the east and south sides.

The Missouri Representative Tells the House What a Practical and Self-Sacrificing Wife Mrs. Clark Is.

Washington, Feb. 28.—Mrs. Champ Clark is a practical woman. The authority for this statement is her distinguished husband, who ought to know. Mrs. Clark would like to see the Missouri Congressman in the White House and she would be willing to take chances of office hours, had sanitary conditions and other disadvantages that go along with the Presidency.

CATARRH A SERIOUS FAR-REACHING BLOOD DISORDER

Even in its early stages Catarrh is almost intolerable, caused by the stuffy feeling in the nose, the buzzing noises in the ears, the continual sneezing and spitting, difficult breathing, etc. But when the blood becomes thoroughly polluted from the catarrhal matter, the inflammation extends to the bronchial tubes, causing hoarseness, and often an aggravating cough; the stomach is affected, resulting in dyspepsia, loss of appetite and strength, and gradually all the mucous membranes of the body become diseased and the system upset and deranged. Frequently the kidneys and bladder are attacked, and the constant passage of impure blood through the lungs, diseases these important members, and Catarrh terminates in Consumption. Catarrh is a deep-seated blood disease, and must be treated constitutionally, for it is beyond the reach of local treatment. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter and at the same time building up the entire system. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, pure blood circulates through the body, the inflamed membranes commence to heal, the mucous discharges grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. has no equal as a cure for this disease. It refines and purifies the entire circulation and repairs the damage done by Catarrh. Special care on Catarrh and any medical advice free.
